Panel User Guide

Need Help? Please call KIT-CATS for assistance: 410-516-6699

Turn System On

Press the power button in the lower right hand corner of the panel to power up the system. Allow for the system to warm up.

A blue light indicates the system is on.

Finished? Please make sure to power down the system after use.

Select an Input

Sources:

Once powered up, allow for a two minute delay when switching sources.

- 1-In-House PC
- 2.Laptop
- 3.Airmedia/Wireless

Airmedia- Type in the URL displayed on the screen and then proceed with the code specified for the room.
